<p style="text-align: center;">Holbein Art Materials Inc. https://www.holbein.co.jp/irodori.html</p> <p>Introducing 48 colors of "Irodori" as Japanese traditional color series of opaque watercolor paint <Gouache>. Transparent watercolor, gouache, and pigment paste can be used as woodblock paints by adding starch glue. Holbein's paints are deep in color and highly saturated, which helps to broaden the range of expression.</p>	<p style="text-align: center;">Michihamono Industrial CO., Ltd. https://www.michihamono.co.jp/c/item/</p> <p>Michihamono Industry manufactures carving knives and chisels in Miki City, Hyogo Prefecture, the city of cutlery. In addition to high-speed steal chisels, which has a reputation for sharpness and long-lasting blades, we also deal with tools such as Sosaku-baren and brushes that are indispensable for woodblock print making. At the Fair we will show you in detail how to sharpen carving knives and chisels.</p>
<p style="text-align: center;">HIDAKAWASHI CO., LTD. https://www.hidakawashi.com/jp/</p> <p>HIDAKAWASHI is a manufacturer of Japanese paper for restoration, and has museums and art galleries all over the world as clients. Now, in response to the requests of printmakers, we have prototyped Japanese paper for water-based woodblock prints and developed a product that is comfortable to use. Please try the texture and performance that have never been seen before.</p>	<p style="text-align: center;">Echizen Washi Village “Udatsu Paper & Craft Museum” https://www.echizenwashi.jp/</p> <p>At this museum, you can watch the process of making Japanese paper using traditional tools and materials by traditional craftsmen. There is also a full-scale Japanese paper making workshop and a long-term training program. At the Fair we will introduce the training program and sell kizuki-washi made from the pure domestic materials, such as kozo, ganpi and mitsumata.</p>

<p style="text-align: center;">Ozu Shoten Co., Ltd.</p> <p style="text-align: center;">https://www.ozuwashi.net/</p> <p>A variety of Japanese paper is created by combining many factors such as raw materials, water, wind, climate and creators. Fluffy, crisp, rough ... Which Japanese paper enables you to express what you want? At the Fair we will prepare lots of kinds of Japanese paper in small size so that you can try as many as possible</p>	<p style="text-align: center;">CfSHE Gallery</p> <p style="text-align: center;">https://endeavor.or.jp/mi-lab/</p> <p>We are engaged in activities to popularize water-based woodblock prints, mainly by running artist-in-residence programs for foreign artists. Based on the AIR experiences we published an e-book “MI-LAB Mokuhanga Handbook for Contemporary Artist” last year. At the Fair our instructors will show you Mokuhanga printing techniques at the workshop.</p>
