

# Mokuhanga Workshop

for **Intermediate** Artists

木版画ワークショップ・中級

Instructed by Michiko Hamada

Organized by Mokuhanga Innovation Laboratory (MI-LAB)

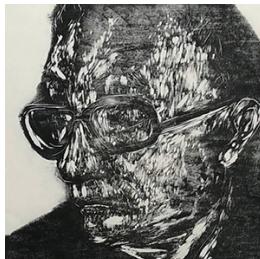

講師：濱田路子

主催：MI-LAB

This is a workshop where we invite artists to carve their own woodblocks and try out different experimental methods of printmaking, such as rotational sequence or even overlapping other participants' works on top of one another! The blocks used will be a 15×15 cm woodblock, carved by techniques such as shallow carving. Our aim is to bring out the unexpected; such as colors and uncalculated shapes. During the workshop, all guests are invited to ask the instructor any questions they may have in order to strengthen their personal artistic practice. Partial participation is also accepted for those who cannot attend the entire program.

このワークショップでは、15cm x 15cm の版木を用いて、彫りなどによる彫りを応用しながら版を作ります。できた版を回転しながら摺り重ねたり、他の参加者の版と摺り重ねることで得られる予想外の色や形の作品を楽しめます。参加者が普段の制作で疑問に思っていることを講師に質問することもできます。全日参加できない方は、部分参加も可能です。
